WHAT YOU GET

◆ FOR EVERY MODULE (×6)

- ◆ **Facilitator guide** — timing, live-demo scripts, the mistakes to pre-empt, checks for understanding
- ◆ **Participant workbook** — objectives, worked examples, write-in exercises, self-check quizzes
- ◆ **Answer key** — every quiz answered and explained, with solution notes
- ◆ **Slide deck** — a self-contained projector deck (no software to install)
- ◆ **Labs** — runnable starter files and reference solutions for every lesson

◆ ACROSS THE KIT

- ◆ **5-day syllabus** (3h AM + 3h PM, ~30 h) — plus web, print, and PDF formats
- ◆ **6 slide decks plus custom diagrams** — the DOM tree, scope chain, event loop, fetch lifecycle & more
- ◆ **A complete capstone app** (QuickNote) — forms, storage, and live API data, ready to demo
- ◆ **Student setup guide + final assessment** (3 app briefs) & rubric
- ◆ **Print-ready PDFs** throughout — hand out or project

WHY INSTRUCTORS CHOOSE IT

- ◆ **Minimal prep to teach.** The facilitator guide scripts each lesson — timing, demos, and the exact beginner mistakes to head off. Walk in and deliver.
- ◆ **Learners actually build.** Every learner leaves with a working app that saves data and talks to a live API — the outcome that sells your class and earns referrals.

- ◆ **Flexible delivery.** Runs as a 5-day class, an evening series, a bootcamp module, or self-paced. Corporate L&D, community college, bootcamp, or solo trainer.
- ◆ **Modern, safe & accessible by default.** Modern vanilla JavaScript with no frameworks to install, `textContent` over `innerHTML`, labeled forms and accessible feedback — good habits from lesson one.
